

Melon Salad - originally found on the Cooking Channel

- ¼ cup lime juice
- 3 Tablespoons honey
- 2 Tablespoons chopped cilantro
- Pinch of sea salt
- 2 cups cantaloupe balls (I used one small cantaloupe)
- 2 cups honey dew balls (I used one small honeydew melon)
- 2 cups watermelon balls (I used half of a small one)

Combine the juice, honey, cilantro and salt in a small jar. Shake to combine. (This takes a little while because the honey is resistant to the process!)

In a large bowl, combine all the melon balls. Add the honey-lime-cilantro mixture and toss to coat. Refrigerate until serving.
